

The Wrack of the Storm (Classic Reprint)

Excerpt from The Wrack of the Storm
The reader taking up this volume will, for the first time in the work of one who hitherto had cursed no man, find words of hatred and malediction. I would gladly have avoided them, for I hold that he who takes upon himself to write pledges himself to say nothing that can derogate from the respect and love which we owe to all men. I have had to utter these words; and I am as much surprised as saddened at what I have been constrained to say by the force of events and of truth. I loved Germany and numbered friends there, who now, dead or living, are alike dead to me. I thought her great and upright and generous; and to me she was ever kindly and hospitable. But there are crimes that obliterate the past and close the future. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
