

Shadeborn (The Arcanus Archives Book 1)

What you believe about myths and legends is about to change. If Death had a child, it would be Shadeborn. Mike's a misguided thug haunted by bad luck, tragedy, and a psychopathic brother. Darius sits atop a world he's ready to abandon. Sheila is just looking to make a meal of the magically gifted. What do they have in common? People they know are being killed. And a slew of supernatural creatures, the Arcane Police, and the N.Y.P.D. all want them either dead or captured. Oh, there's also Phil. But when Phil's around, people die. Lots of them. So what's to be done when the hunt is on, death or worse comes a calling, and immortals decide to shape the life of men? Learn to accept what you are or die. Then again, death isn't what it used to be.
