

# Flutterbugs: The Story of Spice & Cabbage (Books by Teens) (Volume 10)

Cabbage and Spice are two caterpillars who become friends but are forced into different schools and lifestyles when one grows up to be a moth and the other a butterfly. In their insect world, butterflies and moths are taught to hate each other--butterflies are spectacular and loved by humans, while moths are seen as pests. Will the two be able to overcome these barriers and remain friends? The authors of this story are part of an innovative program run by Reach Incorporated. Reach develops grade-level readers and capable leaders by preparing teens to serve as tutors and role models for younger students, resulting in improved literacy outcomes for both.
