

The adventures of Oloorin and Co: Volume III (Volume 3)

Leaving the city of Halbrock to continue journeying, the party stumble upon a rider fleeing from a group of orcs. He was fleeing from an attack on a caravan of refugees. Some of the refugees have been taken captive, the survivors plead to the party to get them back. The party then sets out on a quest to save the captives. As they press on, they find themselves taking part in something larger than just saving a few captives. Using their ship The Flying Goblin, the party sails over a massive ocean to explore new lands. Reaching land, they hear that the king of their realm Yenendithas had passed away. Queen Hollyerris was looking for adventurers to help her, one of the castles artifacts had gone missing. Anyone that could retrieve it would be richly rewarded.
