

## The Hitman Series: A Novella Collection

The Hitman Series features inveterate hitman Logan, who as he approaches the age of forty, begins to find life boring especially during the Christmas holiday season. An unexpected assignment, rare at this time of the year, places him in an awkward and disconcerting place as he becomes fascinated by the celebrations around him and tries to make meaning of his life as a professional hitman. Has Logan traveled a dark path too long to find redemption? In the second story street urchin Maggie and Logan flee from another kind of danger this time a hit on them. They must act quickly to remain safe. The third story introduces another cold-blooded killer from Logans past who threatens to shatter what little peace the characters have gained. The series should be read in order for full impact of the story threads that link Logan with an almost-thirteen-year-old Maggie and a helpless but beguiling infant. The stories also are available individually.
