

Bookish Brit Adam Gibson is one wonky heartbeat away from a fatal arrhythmia. Hes torn between wanting to live and knowing that someone else must die in order for him to do so. He needs a new heart. Adam stops talking to his friends, refuses to meet kids at his new school, and shuts his parents out entirely. His days are spent wondering if can cope with having a dead mans heart beating inside his chest, or if he should surrender to the thoughts of suicide swirling around in his head. And then a donor is found. Outspoken artist Darby Fox rarely lets anything stand in her way of achieving her goals. She also happens to be the twin sister to a perfect brother with good looks, good grades, manners, and the approval of their parents - something Darby has never had. Darbys always had bad timing. She picks the worst time to argue with her brother Daniel. In a car with bald tires, on an icy road in the freezing cold, the unthinkable happens. In a split-second, everything changes forever. When life forces Adam and Darby together, undeniable sparks fly, and a deep connection is made. But the secret inside of Adam may be the thing that pushes them apart forever.
