

Valkyries Vengeance (Lokis Wolves Classics) (Volume 1)

A thirty-year alliance that aligned wolves and hunters has shattered. Victoria Storm leads a few surviving members of her pack in a desperate flight. As the only surviving child of their leaders, the she-wolf inherited the role of Alpha. The violent deaths of her parents and the man she loved left her devastated, and the lives of her followers depend on her decisions. Simple survival often conflicts with the demands of preserving her Norse heritage, so she must struggle to balance her duties as Freya's priestess and Odin's Valkyrie. When innocent children are abducted, she must set aside her differences and work with her worst enemy to rescue them. Valkyries Vengeance was adapted from The Child Thief. This is a 33,000 word expanded version. 1st Edition. Norse & Viking Fantasy.
