

The Spectrum Haiku

Ninety-nine compact poems inspired by everyday hues. Colors are all around us and cannot be explained to a person without sight. This book was written as a celebration of nature, technology, love and everything that might stir a little color inside your mind. Haiku is a mode of Japanese poetry that has been practiced for over six hundred years. Not all of these poems are perfect haiku, but they are all compact expressions of colorful thoughts and grand moments. Modern poetry in this form has evolved. For the first time, high-resolution digital artwork has been included to heighten the lyrical experience of these poems. Order one of these limited edition volumes for yourself. Poetry in Color. + INCLUDES FULL-COLOR ORIGINAL ARTWORK If you are interested in writing a brief review for this work, please contact the author directly at jmickus@gmail.com -- You may be eligible for a free digital copy.
